It is my pleasure to recommend Mr. Jakub Zahradka, who worked in our company as Director of project office. His responsibilities:

- Managing project managers
- Responsibility for individual projects, including the processes from preparation to completion.

Projects such as: CzechPOINT, Data Inboxes, Electronic tolls, Electronic health books, Censuses of houses and flats.

I would like to further mention the following projects:

CzechPOINT, the largest project in the Czech Republic government improving availability of services for citizens such as criminal record extracts, drivers license information or commercial register extracts - 2008/2009:

- Preparation and coordination of the training process for 1000 branches (6000 agents)
- Establishment of HR selection criteria
- Management of training coordination
- Development and release of training manuals
- Coordination of technical sub-contractors of the project
- Responsibility for the whole of project

Data Inboxes, government project to provide secure electronic mail delivery solutions for citizens, companies and government in order to supplement direct mailing services - 2008/2009:

- Preparation and execution of the training process for the 1000 branches (6000 agents)
- Preparation of training documentation for agent training
- Maintenance of operational training documentation
- Establishment of supporting Call Center
- Coordination of technical sub-contractors of the project

Jakub Zahradka is flexible and purposeful manager. I was very satisfied with his work and I want recommend him for manager or consultant position.
